

DATA SHEET

Condrostress® (+) Cat

Last update: 07/03/2026

Healthy joints for adult and senior cats with limited activity

Condrostress® (+) Cat is suitable for adult and senior cats. It preserves the ability of movement and improves quality of life accordingly.

Condrostress® (+) Cat isn't a veterinary drug. It's a complementary feed for cats.

Species: **Cat**

Packaging and Prices

Condrostress® (+) Cat	30 caps	29,10 €	cod. 2172	
-----------------------	---------	---------	-----------	---

Use

Open the capsule and spill the content into the food ration or directly in the cat's mouth. To be administered for 60 to 90-day cycles at the quantity shown in the table.

The capsule is not edible. Once opened and emptied, dispose of it in the wet.

Body weight (Kg)	caps / day
0-6	1
>6	2

Properties

The **eggshell membrane** represents a unique biological matrix serving as a natural source of collagen, glycosaminoglycans (e.g., chondroitin sulphate, hyaluronic acid) and sulfur-bearing amino acids (e.g., methionine and cysteine). The supplementation of eggshell membrane supports cartilage metabolism. **Vitamin E** exerts an antioxidant function, i.e., neutralises free radicals produced in joints.

Covered by international patents.

Functional principle	Quantity
Eggshell membrane *	65 mg/caps
Vitamin E	26 mg/caps

* *unique biological matrix serving as a natural source of collagen, glycosaminoglycans (e.g., chondroitin sulphate, hyaluronic acid) and sulfur-bearing amino acids.*

Ingredients

COMPOSITION Egg membrane (21.3%), disodium dihydrogen diphosphate, inactivated yeasts, maltodextrin, magnesium salts of organic acids (stearic acid), sodium chloride, lupin protein meal, vegetable oil (sunflower seed). ADDITIVES Nutritional additives: Vitamin E (85246 mg/kg). ANALYTICAL CONSTITUENTS Crude protein (22%); crude fibre (21%); crude fat (13,5%); crude ash (21%).
