DATA SHEET

Retopix® Fluid

Last update: 01/07/2026

Soothing and moisturising dermatological fluid

For normalising the skin barrier of areas affected with redness, disepithelialisation, dryness and scaling.

Retopix® Fluid isn't a veterinary drug. It's a dermatological product for dogs and cats.

Species: **Dog • Cat**

Packaging and Prices

Retopix® Fluid

10x2 ml vials

28,20 €

R.R.P.*

Cod. 2060

* Recommended retail price

Use

Apply one drop of fluid per square centimeter of the area to be treated. Massage gently for a few moments. Repeat the application 2 times a day for at least 10 days. The vial is resealable and can be used multiple times. Avoid contact with eyes.

Properties

Adelmidrol - a congener of palmitoylethanolamide - is able to maintain an appropriate dermal function, through a soothing and anti-redness action. **Phytosphingosines** a natural component of the epidermis, essential for maintaining the integrity of the skin barrier and limit the trans-epidermal water loss (TEWL). **Hyaluronic** and **traumatic acid** maintain integrity, hydration and elasticity of the skin.

Functional principle

Adelmidrol (2%)

Phytosphingosine

Hyaluronic acid

Traumatic acid

Ingredients

Ethoxydiglycol, aqua, peg-5 rapeseed sterol, adelmidrol (INN), triclosan, phytosphingosine, undecylenic acid, sodium hyaluronate, trans-2-dodecenedioic acid, usnic acid, sodium hydroxide.

Precautions

Keep out of reach of children.

For animal use only.

External use only.

Suitable for sensitive skin. If any allergic reaction or skin irritation occurs, discontinue use.

Avoid contact with eyes.

Do not apply on open wounds. Do not use in case of known sensitivity to any ingredient.

Close tightly after use. Store at room temperature, away from direct sunlight.
