DATA SHEET

Retopix® Spray

Last update: 02/07/2026

Soothing and sanitising dermatological solution

For normalising skin areas affected by redness, oily secretions and bad odor.

Retopix® Spray isn't a veterinary drug. It's a dermatological product for dogs and cats.

Species: **Dog • Cat**

Packaging and Prices

Retopix® Spray

100 ml

22,80 €

R.R.P.*

Cod. 2061

* Recommended retail price

Use

Apply 1 spray per 10 square centimeters of skin. Before delivering the spray, pull the hair back with your fingers or gently move your hand against the grain. Rub gently for a few moments, in order to improve the distribution of the product. Repeat the application 2 to 3 times a day for at least 10 days. Avoid contact with eyes.

Properties

Adelmidrol - a congener of palmitoylethanolamide - is able to maintain an appropriate dermal function, through a soothing and anti-redness action. **Triclosan**, **usnic acid** and **undecylenic acid** represent a sanitising complex that helps to maintain the balance of the skin surface microflora.

Functional principle

Adelmidrol (2%)

Triclosan

Usnic acid

Undecylenic acid

Ingredients

Ethoxydiglycol, aqua, adelmidrol (INN), triclosan, undecylenic acid, trans-2-dodecenedioic acid, usnic acid, sodium hydroxide.

Precautions

Keep out of reach of children.

For animal use only.

External use only.

Suitable for sensitive skin. If any allergic reaction or skin irritation occurs, discontinue use.

Avoid contact with eyes.

Do not apply on open wounds. Do not use in case of known sensitivity to any ingredient.

Close tightly after use. Store at room temperature, away from direct sunlight.
