DATA SHEET

Oculvet® Wipes

Last update: 31/03/2026

Cleansing, soothing and humectant eye wet wipes

Sterile wipes with cleansing, soothing and humectant action, for cleaning the area around the eye (e.g., eyelashes and eyelids) of dogs and cats. Particularly suited to wipe away the ocular discharge, limit fur stains beneath the eyes resulting from excessive tearing, remove irritants, dust and pollens. Wipes can also effectively be used before applying eye drops, gels or ointments and for pre- and post-operative eye care.

Oculvet® Wipes isn't a veterinary drug. It's a product for the eye hygiene of dogs and cats.

Species: **Dog • Cat**

Packaging and Prices

Oculvet® Wipes

14 wet wipes

16,90 €

cod. 2090

Use

Remove the wipe from the envelope after washing your hands. Gently rub wipe around pet's eye area until clean. For a better soothing action, you may place the sealed envelope in refrigerator half an hour before applying, and leave the wipe on your pet's eyelid for a few minutes.

Properties

Adelmidrol - a congener of palmitoylethanolamide - maintains the proper function of periocular skin and mucous membranes, through a soothing and anti-redness action. The complex of **plant extracts*** specifically selected for their emollient and cleansing activity helps to maintain proper hygiene around the eye. **Hyaluronic acid** gives Oculvet® Wipes lasting humectant and moisturizing effects.

* althaea officinalis, passiflora quadrangularis, verbena officinalis, melissa officinalis, schisandra chinensis, tilia cordata.

Functional principle

Adelmidrol
